

Getting around UTK Summer 2016

MAY 2016 EDITION

It seems like yesterday campus was crawling with graduates and parents. It is the time of year that campus is quieter and it is not as hard to park. Well that may be the case, but there will be numerous times this summer where construction, departments moving, or events on campus will impact your commute and getting around. We hope this short newsletter will keep you apprised of what is going on. Help keep us in the loop by sending any additional items to parking@utk.edu. Thanks

Parking, construction, and other impacts on traffic

May 16

N6A lot is permanently closed. Construction begins on Lake Avenue East garage to open in fall 2017.

Summer permits are now required. Reminder that enforcement is 24/365. Please remember not to park in fire lanes, handicapped spaces or UT service parking areas.

May 16-20

R12 steam line construction by Law Center and Blount Hall

New Garage Opening this summer

Construction is scheduled to be completed in June. Once the contractor has completed their work, the Parking and Transit Services team will commence to install the new technology that will allow Real-Time parking availability via the Parker app.

Destination Imagination Global Finals May 25-28

There will be significant impacts to parking and traveling around campus during the week of May 23-28. The registration starts at TREC's on Monday May 23rd and continues on Tuesday May 24th.

The competitions and activities will take place Wednesday the 25th through Saturday the 28th with a concluding event at Thompson Boling on Saturday May 28th.

Each May, more than 1,400 of the top-scoring DI teams from 45 U.S. states and 14 countries gather in Knoxville, Tennessee to showcase their innovative Challenge solutions. More than 17,000 people attend the event each year.

Please keep an eye out for signage and parking attendants. Here is the map for their event and where they will be parking: <http://www.globalfinals.org/campus-map/>

Is there anything your department or college is conducting which may impact travel around campus?

We already have big picture items on the calendar such as Orientation but we do not have every camp, conference, or class in our calendar. If there is something with a significant attendance, it would greatly help us to know that information.
