### Why the smiley faces and color coding?

Due to the high traffic volumes and dynamic nature of turnover in our garages, our research indicates it is more effective to use a system showing the probability of finding a space instead of the exact number of empty spaces.

Our new system will also add two residential garages over the next few weeks:

- ♦ G11 - Lake Ave garage (N6)
- ♦ G15 - Vol Hall garage (Clinch Ave, N-17)
